:: Technical Skills

Experience with JavaScript, HTML5, CSS3, React, Bootstrap, Sematic UI, WordPress, Sass, MERN, MEAN, UNIX, Linux, Python, PHP, MYSQL, Sketch, Photoshop, Illustrator, InDesign, Dreamweaver, Premiere Pro, Edge.

:: Software Projects

Limosys LLC is a service industry software company catering to taxi and limousine services. Their software allows ride sharing between multiple car services. Direct competitors are Lyft and Uber.

My work was to create responsive web design and screens using React and Bootstrap as well as high quality components from libraries with an extensive ecosystem of tools including Semantic UI and Csinjs.

Software: Java*, JavaScript, ES6, jQuery, React-JS, Bootstrap, Google's Software and following up with my backend colleagues on developing web service using LAMP customized for React and Swift.

Ride5 Group LLC was a complete multimedia development agency including; responsive web-design, integrating live video feedback, and data management using MongoDB, Express and Angular for data filtering with Node-JS

During the period of my employment a complete app for Brazil's World Cup 2014 was developed. My job was creating a complete responsive website for all screens and mobile apps with Angular and Bootstrap libraries. Google translator and geo-locator, currency exchange software.

Software: Java, JavaScript, ES5, Python, Bootstrap, Semantic-UI, PHP, MySQL, JQuery, MongoDB, Node-JS, Swift,

Data: Github, Google MapLine, Amazon S3, PayPal, Mailjet, Stream.
